

Blacklick Valley School District is applying for ESSER Fund (ARP ESSER) 7% Set Asides Consolidated grant funds. This funding must be used to target after school programs, summer school programs, and learning loss. Blacklick Valley will utilize these funds on the implementation and continuation of our After-School Tutoring Programs and Summer Academy. Through this grant, we will continue to improve on our current programs and provide students with the supplies and technology needed to limit the learning loss created by the pandemic. Accommodations will be made for any parent or caregiver who is an individual with a disability and requests an alternate format.
